引言 Introduction

GS1是一個中立及非牟利的國際組織，一直致力設計及推行全球標準，務求讓供應鏈更加高效、透明及安全。其標準不但受ISO認可，並受多個國際機構認同，如全球食品安全倡議 (GFSI)*。GS1全球追溯標準 (GTS) 符合多項國際標準準則，不論食品生產過程中牽涉多少企業和國家，該標準讓食品追溯系統可以全球通行。

食品安全一直都是市民非常關注的議題，因此，建立端到端的食品溯源系統成為食品安全管理中不可或缺的要害。香港貨品編碼協會 (GS1 Hong Kong) 一直致力於推動企業在食品追溯方面的實踐，自2015年開始每年舉辦「優質食品計劃」，表彰在食品安全方面表現出色的本地企業。得獎企業通過有效地採用國際標準和食品管理監控系統技術來滿足食品追溯要求，並提供優質和安全的食品給消費者。

計劃多年來一直與時並進，2020年9月香港通用檢測認證有限公司 (SGS Hong Kong) 加入本會為審計夥伴，推出加強版「優質食品計劃+」由SGS根據ISO22000及HACCP國際標準進行審核，助企業提升保障食品安全。由2024年1月起，新增「優質食品計劃ESG」，透過參考MSCI ESG指數**及聯合國17項永續發展目標***，鼓勵企業實踐對環境、社會和企業管治方面作出貢獻。此計劃為消費者提供了更加安全、健康和可持續的食品選擇，讓我們以更全面的方法去推動整個食品供應鏈及行業的永續發展。

As a neutral, not-for-profit, standard organisation, GS1 has dedicated itself to the design and implementation of global standards, for more efficient, visible and safer supply chains. Its global standards are not only recognised by ISO, but also widely acknowledged by global organisations like Global Food Safety Initiative (GFSI)*. GS1 Global Traceability Standard (GTS), which complies with multiple international standards, makes food traceability systems possible on a global scale, regardless of the number of enterprises or borders along the food production process.

Food safety has always been a major concern for the public, therefore, establishing an end-to-end food traceability system has become an essential element in food safety management. GS1 Hong Kong has been committed to promoting the practicality of enterprises in food traceability and has been organising the "Quality Food Scheme" annually since 2015. Local enterprises that have performed well in food safety have been recognised, and these awarded enterprises have met the requirements of food traceability by effectively adopting international standards and food management monitoring system technologies, and providing high-quality and safe food to consumers.

Quality Food Scheme has been evolving with time. In September 2020, SGS Hong Kong joined the scheme as an audit partner to take reference to ISO22000 and HACCP to conduct audit for "Quality Food Scheme+", effectively boosting food safety standard. Starting from January 2024, GS1 HK launched the "Quality Food Scheme ESG" by referencing the standards of MSCI ESG Indexes** and the United Nations Sustainable Development Goals (UN SDGs)***, encouraging businesses to put effort into ESG practices. The scheme provides consumers with safer, healthier, and more sustainable food choices, and also promote the sustainable development of the entire food supply chain and industry in a comprehensive manner.

獎項類別 Award Categories

鑽石企業
對全球安全及追溯標準的應用以及食品追溯系統之成熟程度達到優秀級別的企業。
Diamond Enterprise
Enterprise has demonstrated a first-class level of global safety and traceability standards implementation and the food traceability system maturity.

金企業
對全球安全及追溯標準的應用以及食品追溯系統之成熟程度達到良好級別的企業。
Gold Enterprise
Enterprise has demonstrated a high level of global safety and traceability standards implementation and the food traceability system maturity.

銀企業
對全球安全及追溯標準的應用以及食品追溯系統之成熟程度達到標準級別的企業。
Silver Enterprise
Enterprise has demonstrated a good level of global safety and traceability standards implementation and the food traceability system maturity.

高效回應消費者指標*
為了提高企業處理事故之速度和能力，2項計劃同時根據高效回應消費者指標作評審。指標主要參照全球高效消費者響應指標 (Global ECR) 製訂，讓企業根據關鍵評分指標 (KPI)，對供應鏈執行效率進行更深一層的指導和評析，以了解公司內部和合作夥伴的 ECR 執行能力。
ECR Index*
In order to improve the speed and capability of enterprises to deal with incidents, both of the schemes have included a ECR Index. The Index is developed according to the Global Efficient Consumer Response (Global ECR) which provides enterprises with a deeper evaluation on the capabilities according to the KPI about the implementation of supply chain's efficiency of ECR.

* 只適用於「優質食品計劃」及「優質食品計劃+」
* Only apply to "Quality Food Scheme" & "Quality Food Scheme+"

創新獎
致力於並利用創新方法在環境、社會和企業管治實踐上有出色表現的企業。
Innovation
Enterprise that has implemented ESG practices with outstanding performance through innovation.

科技獎
致力於並善用科技在環境、社會和企業管治實踐上有出色表現的企業。
Technology
Enterprise that has implemented ESG practices with outstanding performance by the adoption of technology

卓越獎
在環境、社會和企業管治實踐上有出色表現的企業。
Achievement
Enterprise that has implemented ESG practices with outstanding performance.

 評分準則 Scoring System* _____

The scoring system of food safety scheme comprises four major components, including (i) Meeting the Global Standards' criteria, (ii) GFSI recognised food safety standards and other international standards certificates, (iii) Training and (iv) Extent of traceability coverage to external business partners. Total score 1 - 100 (100%).

1	參照國際標準所定立的準則 Meeting the Global Standards'criteria	70%	涵蓋4大項目及12項準則 Cover 4 focus perspectives and 12 criteria
2	GFSI認可的食品安全認證及 其他國際標準認證 GFSI recognised food safety standards and other international standards certificates	15%	• IFS • FSSC22000 • SQF • BRCGS • Global G.A.P. • ISO 22000 • HACCP • ISO 9000
3	培訓 Training	10%	完成相關培訓課程 Complete relevant training courses
4	覆蓋面 Coverage	5%	可追溯規範延伸至上游或下游合作夥伴 Extent of traceability to upstream/ downstream business partners

 高效回應消費者指標 ECR Index*

 參照國際標準所定立的準則 Meeting the Global Standards' criteria	100%	涵蓋4大項目及4項準則 Cover 4 focus perspectives and 4 criteria

歷屆得獎企業心聲 Voice from Winners

合興食油 (香港)有限公司 Hop Hing Oils & Fats (HK) Ltd.

GS1 HK 的優質食品計劃 + 通過與香港通用檢測認證有限公司 (SGS Hong Kong) 合作，為合興進行了評估。由於 SGS 在檢驗、查證、測試和驗證服務都有極豐富的經驗，我們相信通過第三方的評估能更清晰地讓同事了解合興的優勢及改善之處，同時相信可以持續優化我們食品安全的管理和服務標準，加強消費者及商業客戶對我們的信心，令我們的業務持續增長。

We have joined GS1 HK's Quality Food Scheme Plus for many years. Under the Scheme, our company was assessed by GS1 HK & SGS Hong Kong. As SGS is experienced in inspection, verification and testing services, we believe that such third-party evaluation can help our colleagues to better understand Hop Hing's advantages and room for improvements. Only by continuously optimising our food safety management and service standards, we can strengthen the consumers' and business clients' trust towards Hop Hing and fuel our business to grow steadily.

香港及澳門營運總裁 梁子琦先生
Mr. Jack Leung, Chief Operating Officer-Hong Kong and Macau

亞洲水產養殖科技有限公司 Aquaculture Technologies Asia Ltd.

其實可追溯性這項元素有多重要，因為可持續環保海鮮，裡面主要包括食品本身是否優質，以及它本身是否可追溯。透過 GS1 HK 這個計劃讓我們對整個生產過程更加有信心，可以提供到優質的食品。我們絕對會推介這項計劃比其他飲食業界，或者漁農界，因為可持續發展海鮮，可追溯性優質產品這些概念都是大勢所趨，若更多人對這些概念有認識的話，那他們對這些概念的支持度亦會提升。

In fact traceability is an important element, since sustainable and environmentally friendly seafood is mainly about whether the food itself is of high quality and whether it is traceable. By joining GS1 HK's Scheme, we can have higher confidence in the entire production process to provide high quality food. We definitely recommend the Scheme to the catering industry, or even fisheries and agriculture sector because sustainable seafood and traceable high quality products are global trends. If more people become aware of these concepts, they will also increase their support for these (traceability) initiatives.

副總經理 韋智揚先生
Mr. Felix Wai, Assistant General Manager

新億食品有限公司 Sun Yik Food Ltd.

透過 GS1 HK 優質食品計劃提供的框架，我們由原料的管理，到生產，儲存，運送，最後到銷售層面，都有一系列的準則跟隨，令到我們可以出口穩定而合乎各國入口規定的產品，如果需要額外申請相關國際品質管理證書時，由於我們已跟隨著國際性的準則處理，所以也更容易獲得審批，令到出口業務發展開拓更順暢，更得心應手。

Through the framework of GS1 HK Quality Food Scheme, we commence from the management of raw materials, production, storage and delivery. Finally, to the sales level, there are a series of guidelines to follow so that we can meet the import regulations of various countries and export products. If it is necessary to additionally apply for relevant international quality management certificates. It is also easier to obtain approval because we have already followed international guidelines. Empowering us to open up new business overseas smoother.
