

# IOT DATA HACKATHON 2026

March 28 & 29, 2026

# IOT DATA HACKATHON 2026

## Shaping Our Connected Future

Building on the resounding success of our previous editions, we are thrilled to announce the launch of the 3<sup>rd</sup> IoT Data Hackathon. In a world where the Internet of Things (IoT) is no longer a futuristic concept but a present-day reality, the data generated by billions of connected devices holds the key to unlocking unprecedented innovation and solving some of the most pressing challenges of our time.

Following the incredible innovation and collaborative spirit showcased in the past two editions, the **IOT Data Hackathon 2026** once again invites the brightest minds — from tertiary students, innovators, problem-solvers, data enthusiasts to seasoned professionals and entrepreneurs — to come together. Our mission is to empower you to harness the power of real-world data to develop tangible solutions.

This Hackathon is more than just a competition; it is a collaborative environment designed to foster learning, networking, and the creation of impactful prototypes that can shape a smarter, more connected future. You will have the opportunity to access practical workshops, work with exclusive datasets, gain hands-on experience with cutting-edge technologies, and receive invaluable mentorship from industry experts and thought leaders.

We believe that a single idea, powered by data, can spark a global change. This Hackathon is your canvas. We provide the data, the tools, and the mentorship from industry titans. You bring the vision, the skill, and the passion to create solutions that make our city smarter, our businesses more efficient, and our lives better.

***This is your opportunity to stand out. Accept the challenge, accelerate your future, and join us today to compete, create, and connect!***

# 2025 Edition HIGHLIGHTS

**90+**

Participating Teams

**6**

Challenge Statements

**7**

Pre-hackathon Workshops  
*on data analytics & storytelling, IoT, GenAI,  
design thinking, pitching skills, ESG, GIS...*

**2**

Networking Events  
*with leading companies & industry thought leaders*

**24**

Short-listed Teams

**24**

Mentors

**12**

Judges

**14**

Partners & Sponsors

**35+**

Supporting Organisations  
& Tertiary Institutions

**12**

Awards

**30+**

Internship Opportunities

# Challenge THEMES

Demonstrate the use of IoT data, open data & alternative data to tackle business challenges in one of the below themes.

## Technology & Business Innovation

*Build solutions that will define the next era of commercial innovation and efficiency, such as:*

- Low-altitude economy
- AI-powered marketing/operations
- Customer experience
- Supply chain optimisation

## Social Impact & Sustainability

*Develop data-driven solutions that tackle critical societal and environmental issues, such as:*

- The silver economy
- Health & Wellness
- ESG
- Public good and safety

Participants will have access to technology tools and data sets to address challenges by:

- uncovering patterns, identifying trends & emerging opportunities
- deriving actionable insights, optimising processes, and improving efficiency
- delivering hyper-personalised customer experiences
- driving positive ESG outcomes
- creating smarter living experiences
- and more...

The goal is to develop innovative solutions that have a tangible impact on the business landscape and to shape a more sustainable future.

## TIMELINE

**20 Dec 2025**

Application  
Deadline

**Jan-Feb 2026**

Pre-hackathon  
Workshops

**Early Mar 2026**

Announcement  
of Short-listed  
Teams

**28-29 Mar 2026**

**Hackathon**

Day 1: Hack Day  
Day 2: Pitch Day

**9 Jan 2026**

Kick-off Briefing

**15 Feb 2026**

Initial Proposal  
Submission  
Deadline

**Mar 2026**

Tech Workshop  
& Mentorship

**Apr 2026**

Award  
Ceremony

# WHY Join?

From upskilling to professional growth, IOT Data Hackathon is a perfect platform for you to learn, innovate and grow business network.

## Learn

Learn data and problem-solving skills by working on real world challenges

## Enhance Experience

Harness mentorship and valuable feedback from industry and technology experts

## Get Connected

Network and meet industry thought leaders & tech experts to expand your network

## Gain Exposure & Win Recognition

Showcase your expertise, build your professional profile, and win prizes

## Foster Career Development

Fast track to incubation/internship programs, explore opportunities for future career advancement

# WHO Can Apply?

- **Student Stream:** students from Hong Kong tertiary institutions (campus inside and/or outside Hong Kong)
- **Professional Stream:** start-ups, entrepreneurs or business professionals in Hong Kong

### Remarks:

- **Max. 6** members per team
- Each participant can only join one team
- For Student Stream, participants need to be students of tertiary institutions in HK
- For Professional Stream, teams must include at least one HK resident, or one member employed by a HK registered company

# JUDGING CRITERIA

	STUDENT STREAM	PROFESSIONAL STREAM
<b>Innovation &amp; Creativity</b> <ul style="list-style-type: none"> <li>Idea originality and innovativeness</li> <li>Creative problem-solving approach</li> <li>New operational model for business</li> </ul>	25%	20%
<b>Benefits &amp; Impact</b> <ul style="list-style-type: none"> <li>Benefits to users</li> <li>Impact on industry, sector, society, community, and/or public</li> <li>Consideration of ESG factors in measuring sustainability &amp; social impact</li> </ul>	25%	25%
<b>Business Viability &amp; Feasibility</b> <ul style="list-style-type: none"> <li>Ability to address user requirements</li> <li>Business and market potential</li> <li>Ease of implementation</li> <li>Scalability</li> </ul>	20%	25%
<b>Use of Data</b> <ul style="list-style-type: none"> <li>Appropriate use of data sets</li> <li>Data security and governance</li> </ul>	20%	20%
<b>Quality</b> <ul style="list-style-type: none"> <li>Completeness &amp; ability to execute solution</li> <li>Presentation quality</li> </ul>	10%	10%

\* Teams **MUST** use at least **ONE data source** of the provided data sets & indicate in the final presentation

## PRIZES

- **Champion Team:** HK\$5,000
- **First Runner Up Team:** HK\$3,000
- **Second Runner Up Team:** HK\$2,000
- **Best ESG Achievement Award:** HK\$2,000
- **Best Use of AI Award:** HK\$2,000
- **All winners:** Fast Track to HKSTP Ideation Programme (up to HK\$100,000 grant)
- **Student Stream Winners:** Internship opportunities

## Past SPONSORS

## Past TECH PARTNERS

# Hear from Our SPONSORS

**Mr. Norman YUM**

Managing Director, Citrus  
Growers International,  
AS Watson Industries

*The Hackathon is an excellent platform for both the industry and Hong Kong. Many innovative ideas emerged that can be applied or adapted to enhance our business in the future. For example, the participants' ideas showed us how integrating operational flows can drive business improvement, enabling better operational management. I was truly impressed by the dedication of every team.*

**Mr. Louis MAH**

Director – Group  
Information Technology,  
Maxim's Caterers Limited

*This event encourages the exchange of ideas and innovations to develop practical IoT applications that address real-life challenges. By combining IoT with data, we can accelerate technological advancement in Hong Kong. The Hackathon fosters creativity and collaboration, enabling participants to brainstorm and deliver innovative solutions within a short timeframe—a concept I strongly support.*

**Ms. Amy CHOW**

General Manager, Hong  
Kong & Macau,  
Check Point Software  
Technologies Limited

*It's our second time supporting the Hackathon, and we are delighted to see diverse companies participating and sharing real-world challenges. The best part of the hackathon is the data provided for participants to analyse and develop solutions. We hope that when brainstorming technologies or services, participants should always ensure security is embedded in their solutions for lasting impact.*

**Mr. Ricky SIU**

Senior Vice President,  
Mobile Product & Solution,  
Commercial Group,  
HKT Limited

*We value transforming innovative ideas into practical solutions. We encourage participants to be bold in proposing new ideas and make full use of the resources provided, including mentor guidance and data platforms. Participants should enjoy the process, learn and grow from the experience. The Hackathon can inspire more young people to explore technology, cultivate an innovative mindset, and develop problem-solving skills..*

# Hear from Our JUDGES & MENTORS

**Dr. Toa CHARM**  
Founding Chairman,  
Data & AI Literacy  
Association

*This Hackathon is a great event as it involved the participation of several important stakeholders. Companies can present real challenges for participants to solve; whereas startups & young people can participate, understand the issues, and explore ways to use technologies to solve problems. It's great to gather these two groups to spark innovative ideas and generate remarkable outcomes.*

**Mr. Sean TAN**  
Information Technology  
Director,  
Jebsen Group

*The Hackathon highlights the growing importance of IoT & data in addressing challenges faced by smart cities & supply chains. It fostered collaboration, innovation, and idea exchange among participants, judges and mentors, while providing a platform for emerging talents to showcase their skills and advance the IoT ecosystem. It is truly delighted to see there are so many great and quality talents in Hong Kong.*

**Mr. Alvin LEE**  
CEO,  
Armitage Technologies

*As a mentor, I can see the contestants have made thorough preparation. The challenge statements provided by the corporates are very practical, facilitating the participants to realise and solve the problems they encounter in daily life. In fact, it does not matter whether you are a startup or already an entrepreneur, the most important aspect is problem solving. I hope GS1 HK will continue to organise similar events.*

**Mr. Jason LI**  
Data Scientist,  
XTRA Sensing

*The key takeaway from this Hackathon is the chance to engage with young minds, especially students. Unlike our work, often bound by constraints, students approach problems freely and creatively, inspiring us to think out of the box. Their ability to learn quickly exceeded expectations. It reminds us that young people's capacity to absorb new knowledge is remarkable and can spark fresh perspectives for our daily projects.*

# Hear from the Participants

## STUDENT STREAM

### VisionBridge

2025  
Champion; &  
Innovator of  
Secure by Design

*Participating in this Hackathon is a truly meaningful experience. We gained valuable AI skills, deepened our understanding of industry challenges, and explored how to apply existing AI models to address real-world issues in Hong Kong. For future participants, my advice is simple: enjoy the journey. The IoT Data Hackathon is an incredible opportunity to learn, grow, and innovate—an experience that will leave you with knowledge and insights far beyond expectations.*

### Team Zero

2025  
1<sup>st</sup> Runner Up; &  
IoT Sustainability  
Award

*Our biggest takeaway was learning to design solutions from the user's perspective. Initially, we created two systems, but during development, we realised some people may find them difficult to navigate. This led us to build the 1<sup>st</sup> system with a simple user interface, making it more accessible for those with limited tech literacy.*

### TOI

2025  
2<sup>nd</sup> Runner Up

*Joining the Hackathon pushed us out of our comfort zone. The experience was invaluable, we brainstormed solutions addressing the challenge while meeting ESG goals. Most importantly, we learned to integrate multiple elements into a comprehensive, all-in-one solution.*

### 屯門牛牛

2025  
2<sup>nd</sup> Runner Up

*The Hackathon taught us AI fundamentals and the value of teamwork—leveraging each member's strengths. Thanks to GS1 HK for the one-on-one mentoring sessions, which offered valuable insights into hospital pain points and data security best practices, helping us in refining our solution.*

### CHML

2024  
Champion

*Many people struggle to put IoT, big data, cloud service and AI into practical use in business environment, and so did we at first. Thanks to our mentors' help, we learned how to strike a balance between cost and creativity; how to use those technologies to create a better world, and to improve the industry situation.*

### Roomates

2024  
1<sup>st</sup> Runner Up

*It has been an amazing experience. With strong mentor support, we overcame the challenge of addressing a HK's local issue as a team of all international students. By leveraging data from the HK government and HKT, we built a heat map to optimize EV charging station demand, gaining both technical and business insights.*

### TEAM CITYU

2024  
2<sup>nd</sup> Runner Up; &  
Smart IoT Award

*We learned to integrate LP sensors with AI models to solve modern issues. Observing judges and competitors gave us insights into cybersecurity, business models and operations. We had a lot of fun, for working together to think and create. The skills and market knowledge we acquired will be invaluable for the future.*

# Hear from the Participants

## PROFESSIONAL STREAM

### TriTerra Technology Limited

2024 & 2025  
Champion

*We chose the CUHK Medical Centre challenge. Through its data and guidance from the mentors, we gained valuable insights, which greatly enhanced our knowledge and skills. Winning the champion prize is an honor, and we are excited about the potential for future collaboration and business partnership with CUHK Medical Centre. The Hackathon not only broadened our expertise but also opened doors for meaningful opportunities ahead.*

### SF Supply Chain (HK) Limited

2025  
1<sup>st</sup> Runner Up

*Winning this award is a meaningful recognition of our hard work. From initial planning to mentor guidance, we gained valuable insights throughout the Hackathon. Judges' questions and competitors' innovative approaches inspired us to improve further.*

### The Carnot AI Team

2025  
2<sup>nd</sup> Runner Up

*The Hackathon offered invaluable mentorship and comprehensive data for analytics, giving us deeper insights into industry trends. These resources helped shape our solution to be practical and adaptable for companies tackling real challenges, aligning with market needs.*

### Electric Society

2025  
"Best ESG"; &  
"IoT Sustainability"  
Awards

*The Hackathon was an excellent learning experience, especially the setting put up by GS1 HK. We explored the environment and different tools in the market we can leverage. From the Pitch Day, we learned the importance of keeping solutions simple, highlighting clear benefits, especially profitability, while ensuring commercialization and sustainability.*

### Reunion

2024  
1<sup>st</sup> Runner Up; &  
Smart IoT Award

*GS1 HK held a very professional Hackathon with a group of professional judges. The judging panel enlightened us with many different solutions. We are also very grateful to our mentors, for giving us a lot of advice.*

### CECAS

2024  
Best ESG Award

*We would like to thank our mentors for their valuable advice and guidance on presentation skills. Beyond providing assistance with data, they also shared practical insights to help us understand clearly the problems we encountered, and the solutions needed.*

# ORGANISING COMMITTEE

## Chairman

Mr. Louis MAH

Director – Group Information Technology, Maxim’s Caterers Limited

## Members

Mr. Brian CHAN

ERP Project Director | Integrated Data Technologies, Gammon Construction

Mr. William CHAN

Chief Information Officer, CUHK Medical Centre

Dr. Toa CHARM

President, HK IoT Industry Advisory Council, GS1 Hong Kong

Prof. Jack CHENG

Professor & Associate Head, Department of Civil and Environmental Engineering, HKUST

Ms. Mignone CHENG

Chief Marketing Officer, GS1 Hong Kong

Ar. Prof. Ada FUNG, BBS

Founding President, HK Alliance of Built Asset & Environment Information Management Associations

Mr. Argon HO

Chief Commercial Officer – Group ICT Business, HGC Global Communications

Mr. Henry LI

Head of Ecosystem Development, Hong Kong Cyberport Management Company Limited

Mr. Stephen LIU

Head of Channel Sales, Check Point Software Technologies Limited

Ms. Betty LO

Head of Project Management Office, Jebsen & Co. Limited

Ms. Joanne MO

Director, Digital Strategy & Innovation, Swire Coca-Cola Limited

Ir. Susanna SHEN, MH

Advisor of HKCS CIO Board, Hong Kong Computer Society

Mr. Ricky SIU

Senior Vice President, Mobile Product & Solution, Commercial Group, HKT Limited

Mr. Patrick TSANG

Senior Advisor, Information & Communication Centre, Chow Tai Fook Jewellery Group

Mr. John WONG

General Manager, SP Infinite Technology Limited

Mr. Lance YEUNG

Assistant Director - Data Governance & Management, Hong Kong Science & Technology Parks Corporation
